TECHNICAL DATA SHEET

AeroMarine Products ZIP ME-301S

Product Description

ZIP ME-301S is silicone free and is an excellent release for silicone to silicone applications. It works very well with tin and platinum based silicones. It is stable up to 350°F (177°C). and will provide long lasting release properties under this temperature. This mold release is a FDA and USDA approved liquid petrolatum. It is colorless and non-staining. A light coating produces the best results. **Over application of the mold release may cause inhibition in the silicone.**

Key Features

- Excellent release for silicone to silicone applications
- Works with tin and platinum based silicones
- Stable up to 350°F (177°C)
- Provides long lasting release properties at or below 350°F
- FDA and USDA approved liquid petrolatum
